INDEPENDENT AUDITOR'S REPORT

The Honorable Chairman and Members
of the Pequannock River Basin Regional
Sewerage Authority
Butler, NJ 07405

We have audited the accompanying statement of net assets of the Pequannock River Basin Regional Sewerage Authority, as of October 31, 2010 and 2009, and the related statements of revenues, expenses and changes in net assets and cash flows for the years then ended. These financial statements are the responsibility of the Pequannock River Basin Regional Sewerage Authority's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and in accordance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Pequannock River Basin Regional Sewerage Authority as of October 31, 2010, and the respective changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Honorable Chairman and Members of the
Pequannock River Basin Regional Sewerage Authority
Page 2.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 4, 2011 on our consideration of the Pequannock River Basin Regional Sewerage Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This report is an integral part of our audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and Required Supplementary Information are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board and the Division of Local Government Services, Department of Community Affairs, State of New Jersey. We have applied certain limited procedures, which consisted principally of inquiries of management regarding methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

This report is intended for the information of management, the applicable federal agencies and the Division of Local Government Services, Department of Community Affairs, State of New Jersey. However, this report is a matter of public record and its distribution is not limited.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS
OCTOBER 31, 2010**

As management of the Pequannock River Basin Regional Sewerage Authority, we offer the Authority's financial statements this narrative overview and analysis of the Authority's financial performance during the fiscal year ended October 31, 2010 and 2009. Please read this analysis in conjunction with the Authority's financial statements, which follow this section.

Financial Highlights

- The Authority's assets exceeded its liabilities by \$7,727,484 (net assets) for the fiscal year reported. This compares to the previous year when assets exceeded liabilities by \$7,061,350.
- Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt, of \$2,320,717 include plant and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net assets of \$2,626,596 are restricted by constraints imposed from outside the Authority such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net assets of \$2,780,171 represent the portion available to maintain the Authority's continuing obligations to citizens and creditors.
- Total liabilities of the Authority decreased by \$973,151 to \$7,670,840 during the fiscal year.

Overview of the Financial Statements

This annual report includes this management discussion, the independent auditor's report and the basic financial statements of the Authority. The financial statements also include notes that explain in more detail some of the information in the financial statements.

Required Financial Statements

The financial statements of the Authority report information of the Authority using accounting methods similar to those used by private sector companies. These statements offer short and long-term financial information about its activities. The *Statement of Net Assets* includes all of the Authority's assets and liabilities and provides information about the nature and amounts of investments in resources (assets) and the obligations to Authority creditors (liabilities). It also provides the basis for evaluating the capital structure of the Authority and assessing the liquidity and financial flexibility of the authority.

**PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
OCTOBER 31, 2010**

All of the current year's revenues and expenses are accounted for in the *Statement of Revenues, Expenses and Changes in Net Assets*. This statement measures the results of the Authority operations over the past year and can be used to determine whether the Authority has recovered all its costs through its user fees and other charges, operational stability and credit worthiness.

The final required financial statement is the *Statement of Cash Flows*. This statement reports cash receipts and cash payments, and net changes in cash resulting from operations, investing and financing activities and provides answers to such questions as what operational sources provided cash, what was the cash used for, and what was the change in cash balance during the reporting period.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information. This supplementary information follows the notes to the financial statements.

Financial Analysis of the Authority

One of the most important questions asked about the Authority's finances is "Is the Authority as a whole better able to fulfill its mission as a result of this years activities?" The *Statement of Net Assets* and the *Statement of Revenues, Expenses and Changes in Net Assets* report information about the Authority's activities in a way that will help answer this question. These two statements report net assets of the Authority and the changes in those assets. The reader can think of the Authority's net assets – the difference between assets and liabilities – as one way to measure financial health or financial position. Over time, increases or decreases in the Authority's net assets are one indicator of whether its financial health is improving or deteriorating. However, one will need to consider the non-financial factors such as changes in economic conditions, population growth, development, and new or changed government regulation.

Net Assets

As year-to-year financial information is accumulated on a consistent basis, changes in net assets may be observed and used to discuss the changing financial position of the Authority as a whole.

The Authority's net assets at fiscal year-end are \$7,727,484. This is a \$666,134 increase over the prior year's net assets of \$7,061,350. A summary of the Authority's statement of net assets is presented in the following table:

**Condensed Statement of Net Assets

The Authority's Operating Revenues increased by \$91,104 to \$4,754,820 in 2010 from \$4,663,716 in 2009 primarily due to an increase in municipal service contract revenue. Nonoperating Revenues increased by \$10,107 to \$275,987 from \$265,880 mainly due to an increase in interest on investments and deposits.

Budgetary Highlights

The Authority prepares and submits an annual budget to the State of New Jersey, which approves the budget for adoption by the Authority prior to the beginning of the fiscal year.

In accordance with the terms of the service contracts with Bloomingdale, Butler, Kinnelon and Riverdale, the PRBRSA determines the sewer user charges (Annual Charges) based on two separate cost elements, namely, debt service (the Debt Service Charge), and operation, maintenance and administrative (the Operating Charge). The Operating Charge, for budgeting and billing purposes, is further broken down into the Operation & Maintenance Charge and Administrative Charge. A public hearing is conducted annually in accordance with NJSA 40:14B.

The following charts summarize the distribution of the budgeted FY 2010 Annual Charges to the four towns served by the PRBRSA.

Capital Assets

At the end of 2010, the Authority had invested \$11,975,978 in capital assets. The Authority's net plant and equipment at fiscal year-end was \$6,343,950. This is a \$299,400 decrease over last year's net plant, property and equipment of \$6,643,350. A summary of the Authority's capital assets is presented in the following table:

The Authority had no significant capital projects or improvements pending at year-end.

Economic Factors, Future Years Budgets and Rates

The Commissioners and management of the Authority consider a broad range of factors when preparing each year's budget and sewer user charges to the towns. Among the main factors are anticipated contractual charges from the Pequannock, Lincoln Park & Fairfield Sewerage Authority (i.e., the Two Bridges Sewerage Authority); the need for repairs/replacements on and/or capital improvements to the PRBRSA regional interceptor system; significant increases in the required service levels (i.e., the flow contributions from the four towns); anticipated investment yields on non-operating revenues; and any anticipated regulatory changes likely to impose additional direct expenses or indirect expenses, primarily through increases in the Two Bridges Sewerage Authority charges.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)
OCTOBER 31, 2010**

Economic Factors, Future Years Budgets and Rates (continued)

To reduce the rate impacts of anticipated debt service increases resulting from the Two Bridges Sewerage Authority wastewater treatment plant capital improvement program, a Capital Reserve fund was created in FY 2007. As of October 31, 2010, the Capital Reserve Fund balance was \$1,300,000.

NOTES TO FINANCIAL STATEMENTS

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2010 AND 2009

NOTE 1. ORGANIZATION AND RELATIONSHIP WITH TWO BRIDGES AND OTHER PARTIES

The Pequannock River Basin Regional Sewerage Authority (the "Pequannock River Authority", the "Authority", or "PRBRSA") was created in May 1974 by parallel ordinances of its three member municipalities, Bloomingdale, Butler and Kinnelon for the purpose of acquiring, constructing, maintaining and operating sewerage facilities for the improvement of water quality in the Pequannock River Basin. In 1985, the Authority entered into a participant service agreement with Bloomingdale and Butler which obligates each municipality to pay a proportionate share of the Authority's operating expenses, bond service and required reserve additions not met by other sources. In January 1987, the Authority entered into a customer service contract with the Borough of Riverdale, which obligates the Borough to pay for the cost of services rendered by the Authority. In December 1990, the Authority entered into a revised participant service contract with Bloomingdale, Butler and Kinnelon, which also obligates Kinnelon to pay for the cost of services provided by the Authority.

On December 20, 1985, the Pequannock River Authority entered into an agreement with the Pequannock, Lincoln Park and Fairfield Sewerage Authority ("Two Bridges Sewerage Authority", "Two Bridges", or "TBSA") whereby the sewage originating within the Pequannock River Authority's service area would be treated and disposed of by Two Bridges. That agreement provided, inter alia, for the construction of a new interceptor, a portion of which would be conveyed to Two Bridges, and an annual charge for processing and other costs. The Authority's cost of the interceptor conveyed to Two Bridges on December 16, 1987 amounted to \$9,776,098, including capitalized interest expense. This amount is being repaid to the Pequannock River Authority by Two Bridges in the form of annual credits of \$613,923 through the year 2015 and \$256,588 in 2016, which credits are applied to the annual charge for processing and other costs. The interest portion of these credits is reflected in the accompanying financial statements of revenues, expenses and changes in fund equity as non-operating revenue. For the years ended October 31, 2010 and 2009, interest income from Two Bridges amounted to \$158,972 and \$179,099, respectively. The balance of this receivable from Two Bridges at October 31, 2010 and 2009 is \$3,207,661 and \$3,662,611, respectively.

On December 16, 1987, the Authority initiated regional operations by placing into operation the newly constructed regional sewer lines (the "interceptor facilities") interconnecting the PRBRSA service areas with the existing system of the Two Bridges Sewerage Authority. In conjunction with its regional wastewater management responsibilities, the Authority also assumed ownership of certain existing interceptor facilities as conveyed to PRBRSA by the Boroughs of Bloomingdale and Butler.

Two Bridges had asserted that the annual credit for the years 2009 to 2016 should be less than \$613,923. On October 11, 1995 the Authority and Two Bridges Sewerage Authority executed an agreement that the credit due to the Authority from Two Bridges Sewerage Authority on account of the annual charge would be \$613,923 per annum to the year 2015 and \$256,588 in 2016.

NOTES TO FINANCIAL STATEMENTS, CONTINUED
OCTOBER 31, 2010 AND 2009

NOTE 1. ORGANIZATION AND RELATIONSHIP WITH TWO BRIDGES AND OTHER PARTIES, (continued)

Under the terms of the December 20, 1985 agreement referred to above, the Pequannock River Authority is entitled to share in any refunding or crediting of the retained earnings of the Two Bridges Sewerage Authority generated subsequent to the date of conveyance by PRBRSA to Two Bridges of the new interceptor.

The Authority's annual payment obligation to Two Bridges includes a portion of TBSA's treatment plant debt service and TBSA's main sewer debt service, less the annual credits (maximum \$613,923) referred to above.

During the years ended October 31, 2010 and 2009, the charges between Two Bridges Sewerage Authority and the Pequannock River Authority for providing services were as follows:

	<u>2010</u>	<u>2009</u>
Operations and Maintenance	\$2,111,301	\$1,970,936
Administrative Expenses	200,013	194,080
Two Bridges Debt Service	<u>873,870</u>	<u>830,871</u>
	<u>\$3,185,184</u>	<u>\$2,995,887</u>

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Financial Statements:

The financial statements of the Pequannock River Basin Regional Sewerage Authority have been prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The Authority also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, provided they do not conflict with or contradict GASB pronouncements.

B. Basis of Accounting:

The Pequannock River Basin Regional Sewerage Authority prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. Under the accrual basis of accounting, revenues are recognized when they are earned and expenses are recognized when the liability is incurred.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

C. Restricted Accounts:

The 1986 Bond Resolution provides that all revenue received by the Authority be deposited with a Trustee in accounts with various restrictions in the priority of the order listed:

<u>Reserve Fund</u>	<u>Amount</u>	<u>Purpose</u>
Revenue (Revolving)	All revenue (as defined) received by the Authority.	Authorized operating expenses and transfers to the various accounts described below after three months operating expenses reserved.
Bond Service	Amount needed to meet the bond service requirements.	Principal and interest on bonds
Sinking Fund	Amount needed to increase the account to the amount of the aggregate of all sinking fund installments (if any) required to be paid on the next succeeding December 1.	Retirement of bonds for which such account is maintained.
Bond Reserve	Amount needed to equal the Bond Reserve Requirement (as defined).	Transfers to meet minimum levels required in the Bond Service Fund or the Sinking Fund. Any excess remaining is to be paid back to the Revenue Fund.
Renewal and Replacement	Amount needed to increase the balance to equal the System Reserve Requirement.	Transfers to meet the reasonable and necessary expenses for major repairs, renewals, replacements or maintenance items of a type not recurring annually or at short intervals. Any excess is to be paid back to the Revenue Fund.
General	Any balance in revenues after above withdrawals and required reserves.	Transfers to meet deficiencies in any fund or account, after which funds may be expended for any lawful corporate purpose of the Authority.
Construction	Proceeds of debt issued, grant proceeds and insurance proceeds relating to projects (other than use and occupancy insurance), or any amount upon Officer's Certificate.	Prior and future project construction costs.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

C. Restricted Accounts, continued:

In addition to the foregoing, the Authority has established the following account:

Operating Account - Unrestricted

The Operating account was established to carry on the operations of the Authority. Transfers are made from the Revenue Account to the Operating Account to pay for the operating expenses for the current fiscal year. The Operating Account is a non-trustee controlled account under the direct control of the Authority.

D. Cash and Cash Equivalents:

Cash and cash equivalents include demand deposits with original maturities of three months or less.

E. Investments:

Investments are carried at market value. Interest earned and not received is accrued. Interest earned on restricted assets is included in non-operating revenues, while interest earned on operating investments, (unrestricted assets) is included in operating revenues. Investments are made in accordance with the 1986 Bond Resolution.

F. Debt Issue Expenses:

Debt issue expenses incurred in connection with the 1994A, Series H and Series I Bonds, the 1995 Series J and K State Loan Bonds, the 1996 Series L Sewer Revenue Bonds and the 2002 Series M Revenue Refunding Bonds are being amortized over the life of those bonds. When outstanding debt is advance refunded resulting in defeasance of debt, unamortized debt issue expenses related to the defeased debt are considered in the determination of the net carrying amount of the defeased debt. The difference between the reacquisition price and the net carrying amount of the old debt is reported in the accompanying financial statements as a deduction from bonds payable and is being amortized over the life of the old debt or the life of the new debt, whichever is shorter.

G. Plant and Equipment:

Plant and equipment are stated at cost, which includes direct construction costs and other expenditures related to construction. Acquisitions that do not provide both current and future benefits are charged to current operating results.

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
NOTES TO FINANCIAL STATEMENTS, CONTINUED
OCTOBER 31, 2010 AND 2009

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

G. Plant and Equipment, continued:

Depreciation is determined on a straight-line basis for all plant and equipment. Depreciation is provided for over the following estimated useful lives:

Interceptor	40 Years
-------------	----------

Interest expense is capitalized on qualified projects, net of interest revenue earned on the proceeds, from the time of borrowing funds for the project until the completion of the project. Thus, during the construction of a qualified project, there would be no impact upon operating results for interest expense or income. Instead, the net interest cost would be added to the cost of the project.

H. Income Taxes:

No provision has been made for income taxes, as the Authority is exempt from federal and state income taxes.

I. Concentration of Credit Risk:

The Authority's financial instruments that are exposed to credit risk consist primarily of cash, cash equivalents and receivables. The Authority places its cash and cash equivalents with financial institutions that are covered by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000. Deposits above that amount are protected by the Governmental Unit Deposit Protection Act (GUDPA), and the Authority believes no significant concentration of credit risk exists with respect to its cash and cash equivalents. There is a significant concentration of credit risk with respect to the Authority's receivables which consist of amounts due from the four (4) municipalities serviced by the Authority and an amount due from Two Bridges Sewerage Authority (see note 1). However, the credit risk with respect to Two Bridges is diluted by the fact that the Authority receives more in services from Two Bridges, for which the Authority is obligated to pay Two Bridges, than it receives in credits from Two Bridges. The Authority has entered into service contracts with each of these municipalities (see note 1) that require the municipalities to reimburse the Authority for the cost of services provided.

J. Use of Estimates:

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual results could differ from those estimates.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

K. Budgetary Procedures:

The Authority follows these procedures in establishing the Operating Fund budget:

The annual budget for each fiscal year of the Authority is introduced by resolution passed by not less than a majority of the governing body. Two certified copies are submitted to the director of the Division of Local Government Services at least 60 days prior to the beginning of the Authority's fiscal year for approval prior to its adoption.

The budget must comply with the terms and provisions of any security agreements, and is to be in such form and detail as to items of revenue, expenses and other content as required by law or by rules and regulations of the Local Finance Board.

No Authority budget can be finally adopted until the Director has approved the budget.

A public hearing is conducted to obtain citizen comment on the proposed budget.

Appropriations lapse at the close of the fiscal year to the extent that they have not been expended.

The level at which expenditures cannot exceed the budget is at the total budget level.

The budget may be increased after adoption when an item of revenue has been made available after the adoption date (N.J.S.A. 5:31-2.8).

L. Recent Accounting Pronouncements

The Government Accounting Standards Board has issued GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. The Statement governs the presentation of fund balances, which in total is the difference between assets and liabilities, into amounts that are non-spendable and amounts that can be spent. This Statement is effective for financial statements for periods beginning after June 15, 2010 and compliance is not required until the Authority's 2011 fiscal year.

The Government Accounting Standards Board issued GASB Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The hierarchy for generally accepted accounting principles establishes what literature or authority that preparers of financial statements should use. The requirements of this Statement will help guide preparers of financial statements for state and local governments to apply all relevant accounting principles found in GASB literature. The Statement is effective immediately and is not expected to change current practice. The Authority is in compliance.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, (continued)

L. Recent Accounting Pronouncements, continued:

The Government Accounting Standards Board issued GASB Statement No. 56, Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards. This Statement will incorporate into the GASB literature certain guidance found in the AICPA Statements on Auditing Standards. The Statement addresses three issues not included in the authoritative literature that establishes accounting standards: related party transactions, going concern considerations and subsequent events. The Authority expects that the Statement will improve reporting but will not materially affect current practice. The Statement is effective immediately. The Authority is in compliance.

The Government Accounting Standards Board issued GASB Statement No. 58, Accounting and Financial Reporting for Chapter 9 Bankruptcies. This Statement is intended to improve consistency in the measurement and financial reporting of OPEB such as retiree health insurance. The Authority has determined that this Statement is not applicable.

NOTE 3. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

NOTE 3. CASH AND CASH EQUIVALENTS, (continued)

Custodial Credit Risk

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the Authority will not be able to recover its deposits. The Authority's policy is based on New Jersey Statutes requiring cash to be deposited only as described on the preceding page. As of October 31, 2010, \$-0- of the Authority's bank balance of \$4,150,794 was exposed to custodial credit risk.

As of October 31, 2010, the Authority's cash and cash equivalents are summarized as follows:

<u>Accounts</u>	<u>Money Market/ Checking Accounts</u>	<u>NJ Cash Management Fund</u>	<u>Total</u>
Unrestricted:			
Operating Account	\$(644,966)		(\$644,966)
Trustee funds	215,561	\$3,161,453	3,377,014
Restricted:			
Trustee Funds	<u>127,904</u>	<u>806,174</u>	<u>934,078</u>
	<u>(\$301,501)</u>	<u>\$3,967,627</u>	<u>\$3,666,126</u>

New Jersey Cash Management Fund

All investments in the Fund are governed by the regulations of the Investment Council, which prescribe specific standards designed to insure the quality of investments and to minimize the risks related to investments. In all the years of the Division of Investment's existence, the Division has never suffered a default of principal or interest on any short-term security held by it due to the bankruptcy of a securities issuer; nevertheless, the possibility always exists, and for this reason a reserve is being accumulated as additional protection for the "Other-than-State" participants. In addition to the Council regulations, the Division sets further standards for specific investments and monitors the credit of all eligible securities issuers on a regular basis.

As of October 31, 2010, the Authority had \$3,967,627 on deposit with the New Jersey Cash Management Fund.

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
NOTES TO FINANCIAL STATEMENTS, CONTINUED
OCTOBER 31, 2010 AND 2009

NOTE 3. CASH AND CASH EQUIVALENTS, (continued)

The carrying amount of the Authority's cash and cash equivalents at October 31, 2010 was \$3,666,126 and the bank balance was \$4,150,794. Of this amount, \$3,967,627 in the New Jersey Cash Management Fund is not covered by either the federal depository insurance or the collateral pool maintained by the banks as required by New Jersey Statutes.

NOTE 4. NEW JERSEY WASTEWATER TREATMENT TRUST

Unrestricted

The Authority issued bonds in 1987 through the New Jersey Wastewater Treatment Trust ("Trust") to advance refund other bonds (see Note 9). The Authority receives credits from the Trust based upon current market rates to partially offset the semiannual interest payments related to the 1987 Series D Bonds. These credits are recognized as non-operating revenue on the accrual basis as earned. During fiscal years 2010 and 2009, these earnings aggregated \$1,796 and \$3,431, respectively.

NOTE 5. INVESTMENTS

The Authority's investment policy permits the investing of funds in the following types of investments:

- (a) Any direct and general obligations of the United States of America.
- (b) Negotiable or nonnegotiable certificates of deposit as defined under "Investment Obligations" of the General Bond Resolution.
- (c) Other investments, as defined in the Authority's Bond Resolution.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State law and the Authority's Bond Resolution limit the type of investments made by the Authority as described above.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority's investment policy permits the investing of funds in the types of investments described above as defined by the Authority's Bond Resolution.

NOTE 7. DEBT ISSUE COSTS

Debt issue costs less accumulated amortization at October 31, 2010 and 2009 were \$246,670 and \$273,640, respectively.

NOTE 8. PREMIUM ON BONDS PAYABLE

The Authority received a premium of \$103,332 in connection with the issuance of the Sewer Revenue Refunding Bonds (Series 2002 M). This premium is being amortized over the life of the bonds using the straight-line method. In accordance with APB 21, the unamortized balance of this premium is shown as an addition to the balance of the bonds payable.

NOTE 9. BONDS PAYABLE

On November 10, 1994, the Authority issued \$1,390,384 of Sewer Revenue Bonds (1994 Series H) to the State of New Jersey (Fund). They bear 0% interest and mature on March 1, 2014. Simultaneously, the Authority issued \$1,545,000 of Sewer Revenue Bonds (1994 Series I) to the New Jersey Wastewater Treatment Trust. They bear interest from 5.70% to 6.50%, depending upon their maturity, and have a final maturity of August 1, 2014.

On November 9, 1995, the Authority issued \$583,043 of Sewer Revenue Bonds (1995 Series J) to the State of New Jersey (Fund). They bear 0% interest and mature on August 1, 2015. Simultaneously, the Authority issued \$630,000 of Sewer Revenue Bonds (1995 Series K) to the New Jersey Wastewater Treatment Trust. They bear interest from 4.60% to 5.25%, depending upon their maturity, and have a final maturity of August 1, 2015.

On June 19, 1996, the Authority issued \$835,000 of Sewer Revenue Bonds (1996 Series L). They bear interest from 3.85% to 6.00%, depending upon their maturity, and have a final maturity of December 1, 2021.

During fiscal year 1998, the New Jersey Wastewater Treatment Trust refunded its remaining 1994 Series A Bonds by issuing its Wastewater Treatment Refunding Bonds, Series 1998 F. This refunding resulted in the recognition of an accounting gain of \$63,382 for the Authority for the fiscal year ended October 31, 1998. Under the guidelines of GASB 23, this gain has been deferred and is being amortized over the life of the bonds using the straight-line method.

NOTE 9. BONDS PAYABLE, (continued)

On December 2, 2002, the Authority issued \$10,400,000 of Sewer Revenue Refunding Bonds (2002 Series M). The Bonds bear interest from 4.50% to 5.00% depending upon their maturity and have a final maturity of December 1, 2021. The yields on the Bonds range from 3.95% (5.00% term bond due December 1, 2006) to 5.31% (5.00% term bond due December 1, 2021) providing a net original issuance premium of \$103,332 over the \$10,400,000 par amount of the Bonds yielding gross proceeds of \$10,503,332.

The proceeds have been used to currently refund the Authority's \$10,110,000 callable Sewer Revenue Refunding Bonds (1992 Series F), dated December 1, 1992 as originally issued in the aggregate principal amount of \$12,655,000. The refunding resulted in a deferred loss on refunding (difference between the reacquisition price and the net carrying amount of the old debt) of \$1,173,944 including \$599,810 of unamortized difference related to the 1992 defeasance transaction described above. This difference, reported in the accompanying financial statements as a deduction from bonds payable, is being amortized over the life of the bonds using the straight-line method.

The following is a summary of the Authority's long-term debt transactions for the fiscal year ended October 31, 2010:

	<u>Balance</u> <u>10/31/09</u>	<u>Issued</u> <u>FY 2010</u>	<u>Retired</u> <u>FY 2010</u>	<u>Balance</u> <u>10/31/10</u>

NOTE 11. INVESTMENT IN FORWARD DELIVERY AGREEMENTS

On April 27, 2000, the Pequannock River Basin Regional Sewerage Authority entered into two investment agreements with First Union National Bank as "Provider" and with First Union National Bank as "Trustee" for the "Debt Service Reserve Forward Delivery Agreement" and the "Debt Service Forward Delivery Agreement".

Under the Debt Service Reserve Forward Delivery Agreement, "Agreement", the Authority invested the proceeds of funds available within the Bond Reserve Fund (i.e. the annual Bond Reserve Requirement) in return for a \$75,000 lump sum payment and a guaranteed investment return of 5.84% through the term of the agreement on December 1, 2021.

Under the Debt Service Forward Delivery Agreement, "Agreement", the Authority invested dedicated cash flows for the principal and the interest payments on the 1992 Series F Sewer Revenue Refunding Bonds to the Provider in exchange for a guaranteed investment return of 6.54% through the maturity of the agreement on December 1, 2021.

All funds made available to the Provider are fully collateralized by U.S. Government Securities deposited with the Trustee.

Effective December 2, 2002, the First Amendment to the Debt Service Reserve Forward Delivery Agreement and the First Amendment to the Debt Service Forward Delivery Agreement between the Authority and Wachovia Securities Group (the "Provider") modified the terms of the respective April 27, 2000 Agreements to reflect the modified debt service repayment schedule resulting from the December 2, 2002 issuance of the Sewer Revenue Refunding Bonds (2002 Series M).

NOTE 12. COMMITMENTS AND CONTINGENCIES

The Authority's management and attorney has informed us that they are unaware of any other commitments and contingencies that would have a material effect on the financial statements.

NOTE 13. DESIGNATION OF UNRESTRICTED NET ASSETS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

January 4, 2011

The Honorable Chairman and Members
of the Pequannock River Basin Regional
Sewerage Authority
Butler, NJ 07405

We have audited the financial statements of the Pequannock River Basin Regional Sewerage Authority as of and for the year ended October 31, 2010 and 2009, and have issued our report thereon dated January 4, 2011. We conducted our audits in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in "Government Auditing Standards", issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Pequannock River Basin Regional Sewerage Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Pequannock River Basin Regional Sewerage Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Pequannock River Basin Regional Sewerage Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

The Honorable Chairman and Members
of the Pequannock River Basin Regional
Sewerage Authority

January 4, 2011

Page 2.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Pequannock River Basin Regional Sewerage Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards is intended solely for the information of the governing body, the Division of Local Government Services, Department of Community Affairs, State of New Jersey, Federal Awarding Agencies and Pass Through Entities and is not intended to be and should not be used by anyone other than these specified parties.

COMMENTS AND RECOMMENDATIONS

Contracts and Agreements Required to be Advertised Per N.J.S. 40A:11-3

N.J.S.A. 40A:11-4 states "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law."

Effective July 1, 2005 and thereafter the bid thresholds in accordance with N.J.S.A. 40A:11-3 (as amended) is \$21,000 or \$29,000 if there is a certified purchasing agent.

N.J.S.A. 40A:11-2 contains definitions for terms used throughout N.J.S.A. 40A:11-1 et seq. and was amended under P.L. 1999, c.440. It includes as subsection (23) the term 'competitive contracting', which is defined as "the method described in sections 1 through 5 of P.L. 1999, c.440 (C.40:11-4.1 through C.40A:11-4.5) of contracting for specialized goods and services in which formal proposals are solicited from vendors, formal proposals are evaluated by the purchasing agent or counsel; and the governing body awards a contract to a vendor or vendors from among the formal proposals received."

N.J.S.A. 40A:11-3 was amended with P.L. 1999, c.440 to raise the bid threshold and require award by governing body resolution. "When the cost or price of any contract awarded by the purchasing agent in the aggregate does not exceed in a contract year the sum of \$26,000 or \$36,000 if there is a certified purchasing agent, the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids and bidding therefore, except that the governing body may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations."

N.J.S.A. 40A:11-15 was amended with P.L. 1999, c.440 to extend the base contract period. "Any contract made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to paragraph (1) of subsection (a) of N.J.S.A. 40A:11-5 may be awarded for a period not exceeding 12 consecutive months."

The governing body of the Authority has the responsibility of determining whether the expenditures in any category will exceed the statutory threshold within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the opinion of the Authority's attorney should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
COMMENTS AND RECOMMENDATIONS, CONTINUED

Our examination of expenditures did not reveal any individual payments, contracts or agreements “for the performance of any work or the furnishing or hiring of any materials or supplies” in excess of the statutory thresholds other than those where bids had been previously sought by public advertisement or where a resolution had previously been adopted under the provisions of N.J.S.A. 40A:11-6.

Our review of the Authority’s minutes indicated that resolutions were adopted authorizing the awarding of contracts or agreements for “Professional Services” per N.J.S.A. 40A:11-5.

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED OCTOBER 31, 2010

Summary of Auditor's Results:

- An unqualified opinion was issued on the Authority's financial statements.
- The audit did not disclose any material weaknesses in the internal controls of the Authority.
- The Authority was not subject to the single audit provisions of Federal OMB Circular A-133 (the "Circular") and State Circular 04-04-OMB for fiscal year 2010 as there were no grant expenditures for the year ended October 31, 2010.

Findings relating to the Financial Statements which are required to be Reported in Accordance with Generally Accepted Government Auditing Standards:

- The audit did not disclose any findings required to be reported under Generally Accepted Government Auditing Standards.

PEQUANNOCK RIVER BASIN REGIONAL SEWERAGE AUTHORITY
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
YEAR ENDED OCTOBER 31, 2010

There were no findings of noncompliance noted for the prior year as ended October 31, 2009.

Problems and weaknesses noted in our review were not of such magnitude that they would affect our ability to express an opinion on the financial statements taken as a whole.

We wish to thank Pequannock River Basin Regional Sewerage Authority for their cooperation during the performance of our audit.

Very truly yours,
